

LOGOUPDATE

BECAUSE INNOVATION IS ALWAYS AHEAD OF ITS TIME

SHAPING YOUNG MINDS TODAY, SO THEY BECOME GREAT MINDS

Proud to present our latest
community tool: Educational
Packs, aka, **EDU PACKS**

EDU PACKS are Logoplaste's information packs for children, ages 4 to 6

They help kids better understand
the importance of recycling through
a series of fun activities.

Each pack contains:

- **2 posters** - print & post
- **1 karaoke** - turn up the volume and don't skip a beat
- **1 story** - where the main character is "Plastic"
- **6 worksheets** - coloring activities to recap best practices

Materials can be used at home, a fun activity between parents and children. At school, where teachers can use the information and get the class involved.

We had the help of a professional consultant to create the materials, ensuring content is tailor made and age appropriate. EDU PACKS are country specific. Brazil, Portugal and USA are on the menu.

THE MORE WE KNOW, THE BETTER WE DO
HELP US CREATE A SUSTAINABLE WORLD
